

# This Is Your Day

112

Yeah

I'll shine the sun your way  
Oh, girl, this is your day  
Alone at night my body craves you  
Then I let the music play and we make love in my mind  
I get the chills as though you're there with me  
Now, I can't wait for you to come home  
Just to please me that's why  
If you want the sun then I'll shine it your way  
And if you want your back rub then I'll come right away  
And anything you want from me baby, you can have it your way  
Oh, girl, this is your day  
Baby, you know you make my day when you're with me  
Please forgive me, if I showered you with diamond rings  
And all those pretty things baby, you've changed my life  
And brighter days you've shown me, lady, you're not alone  
My heart is home, just you have exit  
Girl, if you want the sun then I'll shine it your way  
And if you want your back rub then I'll come right away  
And anything you want from me baby, you can have it your way  
Oh, girl, this is your day  
I wanna be where you are in everything you do  
So if you pack your bags and go away I'll have to move where you are  
Girl, what I am suppose to do? Got to get through to you  
To make you see with you, is where I want to be  
Break it down, break it down 112 break it  
Break it down, baby, baby  
Baby, sing it, sing it, sing it, sing it  
I wanna be where you are and everything you do  
112 sing it  
Girl, if you want the sun then I'll shine it your way  
And if you want your back rub then I'll come right away  
And anything you want from me baby, you can have it your way  
Oh, girl, this is your day  
Girl anything you want, oh girl, this is your day
