Touching And Kissing

Cinema Bizarre

Lookin' for a shot of you
In someone else's smile
I'm holdin' on to every word
Comparin' all the time
The more I break the more they talk
I'm left paralyzed
I'm struggling through the lonely nights
Questions fill my mind
I'm touching & kissing
With tears in my eyes
No one can help me forget
You're touching and kissing
With tears in your eyes
It's not over
Running through these dirty streets
Of concrete and steel
Wrapped up in these velvet sheets
Give me something surreal
There's no substitute
No one else is you
No one else is you
I'm fallin' into someone's eyes
Come make me feel alive
I'm touching & kissing
With tears in my eyes
No one can help me forget
You're touching and kissing
With tears in your eyes
It's not over
This tunnel just goes on and on and on
Repeating, repeating, repeating
Can someone just let me out, it keeps
It keeps repeating, repeating, repeating
All the time, time, time
Time, time, time, time
Time, time, time, time
I'm touching & kissing
With tears in my eyes
No one can help me forget

You're touching and kissing
With tears in your eyes
It's not over
