

# You Know Me

George Huff

You know me, everything I do  
You know me, I'm a window you see through  
When all the world is not at home  
Your waiting for me at the door  
And you let me in, it's all beautiful  
When I stumble you bruise  
When I hurt myself, it hurts you, yeah  
So when I make you cry it makes me wanna never fall again  
The smaller I am, the larger your love  
You know me, everything I do  
You know me, I'm a window you see through  
The most foolish thing I could ever do  
Is think that I could lie to you  
And put up walls, you'd see through them all  
'Cause you know me, yeah, you know me  
You know the secrets and the scars  
That's how into me you are  
'Cause you know me, yes you did  
You know me, every little thing I do  
In a street full of noise  
Its amazing how you still can hear my voice, its amazing dear  
And when I pull away  
You care enough to patiently wait  
'Till I come back around, like I am now  
It's beyond beautiful  
'Cause you know me, you know me, yes you do  
You know the secrets and the scars  
That's how into me you are, ohh  
'Cause you know me, yes you do  
You know me, every little thing I do  
You know me, every little thing I do  
You know me, every little thing I do  
You know me, every little thing I do  
I'm a window you see through  
All the world is not at home  
You know the secrets and the scars  
That's how into me you are  
'Cause 'cause you know me, yes you do  
You know me, every little thing I do

You know me, every little thing I do  
You know me, every little thing I do

...
