

# Recognise (Emperor Remix)

**Fred V & Grafix**

All the words that we've said  
Draw me in, turn the page  
Recognise what we've found  
Free from all, without doubt  
All the moves that we make  
Listening for something  
Oh, the night is still young  
Got my mind made up now  
Rush of blood in my head  
We both know how this ends  
No more words to be said  
Nothing else can compare  
Moving slow, moving fast  
As we glow in the dark  
Recognise what we've found  
Got my mind made up now  
Now we're free, no more hurt  
Run my hands through your hair  
I breathe in, you breathe out  
Got my mind made up now
