Live And Learn

Clannad

Can't you feel the changed in a different way
When you listen?
Like standing in the cold on a rainy day
It didn't really matterIt was just a shame on another day
You know we kept on missing
So try and try again
No it's not in vain
You live and you learnHeard the voice
Now do it your own way
You live and learnIt's what you have to say you just say anyway
Only space that matters
Taking in the rays
Holding out the pain
So you live and you learnTake that choice
To have it your own way
So you live and learn
