

Something Beautiful

Sharon Doorson

like an ocean
I can feel you but you're far away
 in motion
 always one step ahead of me
 this notion
 that I'll catch you one day
keeps me going, falling, deeper into outer space
 deeper into outer space
deeper into outer space
 outer space, outer space
 if I could be there with you
 cause you take me,
 Oh you make me brand new
 got a one way ticket for two
 We're getting closer,
 like a trip to the moon
 to something beautiful
 to something beautiful
 I can see ya
 and I caught you looking back at me
 like I need you
 smiling cause you're making it look so easy
 I can't help it
 when you sing to me sing to me
 cause I'm falling for your melody
 cause I'm falling for your melody
cause I'm falling for your melody...melody, melody
 if I could be there with you
 cause you take me,
 Oh you make me brand new
 got a one way ticket for two
 We're getting closer,
 like a trip to the moon
 to something beautiful
 to something beautiful
 to something beautiful...
