

# Heaven Says Hello

[Sonny James](#)

Heaven says hello every morning  
When the sun says, Hi I've come to spend the day  
Heaven says hello with the songbirds  
And the little flowers that nod along my way  
And when the day is through and I hurry home to you  
As the twilight steals across the golden skies  
Heaven says hello when you kiss me  
And I look into the blue of your eyes  
Heaven says hello when you kiss me  
And I look into the blue of your eyes  
And I look into the blue of your eyes
