

Coming Home

Jessie James Decker

I know it's only been a little while
Baby I really need to see you smile
Seems like forever when I'm away from you
Let me tell you what I'm gonna do

I'm coming home
Gonna give you what you want
Cause I need your love
I don't wanna be alone
I'm gonna fly to you
Just like I always do
I'm lost without you you know
I'm coming home
I'm coming home

Baby you can keep me up all night
Pillow talking by the candlelight
No need to tell you already know
What to do and where to go

I'm coming home
Gonna give you what you want
Cause I need your love
I don't wanna be alone
I'm gonna fly to you
Just like I always do
I'm lost without you you know
I'm coming home

Just need to see your face
Can't waste another day
There's nothing left to say
Just take my breath away

I'm coming home
Gonna give you what you want
Cause I need your love
I don't wanna be alone
I'm gonna fly to you
Just like I always do

I'm lost without you you know

I'm coming home

I'm coming home

I'm coming home
