

Please Baby

Big Bad Voodoo Daddy

Please baby, let's get it right
I don't think, I can take it, one more night
I know I love you, I love you, I love you
Though the stars are mine
So please, please baby, show me you are mine Please baby, let's not fight
I don't think, I can take it, one more night
I know I love you, I love you, I love you
Though the stars are mine
So please, please baby, show me you are mine Please baby, let's get it right
Wanna make love to you baby, all through the night
I know I love you, I love you, I love you
Though the stars are mine
So please, please baby, show me you are mine Show me you are mine
Show me you are mine
Show me you are mine
