

# Voodoo

## Black Sabbath

Say you don't love me, you burn,  
You can't refuse, but you lose, it's by me  
Say you don't love me, you learn,  
Nothing you do will renew till time's through  
Call me a liar, you knew  
You were a fool, but that's cool, it's all right  
Call me the Devil, it's true  
Some can't accept, but I crept inside you  
So if a stranger calls you  
Don't let him whisper his name  
'Cause it's Voodoo, oh! Fade into shadow, you burn  
Your fortune is free, I can see it's no good  
Never look back, never turn  
It's a question of time till your mind and you learn  
So if a stranger sees you  
Don't look in his eyes, 'cause he's Voodoo!
