

# Blond Hair and Blue Eyes

[moe.](#)

She's living with a perfect disguise...

Blonde Hair and Blue Eyes

At home being one of the guys...

Blonde Hair and Blue Eyes Wherever she stays you will go x2 She is the Stars and the Sun and the Sky

Blonde Hair and Blue Eyes

Jealous is the Moon, she'll show off the Night

Blonde Hair and Blue Eyes Wherever she stays you will go x2 Both the end and the cause of a fight

Blonde Hair and Blue Eyes

Drop to your knees and she'll punch out your lights

Blonde Hair and Blue Eyes Wherever she stays you will go x3 And I know this because I know Wherever she stays you will go x3 And I know this because... She's living with the perfect disguise x2 At home being one of the

Guys x2 She is the stars and the sun and the sky

Jealous is the moon she'll show off the night

Both the end and cause of a fight

Drop to your knees and she'll punch out your lights Blonde Hair and Blue Eyes x4 Wherever she stays you will go x 3

And I know this because... because I know
