

# Summerzcool

## Jimmy Buffett

You messed up, you read the paper  
You accidentally watched the news  
You inadvertently find yourself  
In the vicinity of the blues Bust your ass to get a good life  
You make a habit out of overtime  
When the big report card comes  
Your priorities are way out of line You need to go to summer school  
Get to the beach or at least in the pool  
Time to go to summer school  
Remember what is and what is not cool Time out for bad behavior  
Time off, you've been under the gun  
High time somebody told you  
It's time to let those puppies run What's up with this recession?  
I refuse to participate  
The answer to your burning question  
Is dancing on your tailgate It's time to go to summer school  
Remember what is and is not cool  
Oh, summer school  
There is a time and a place to act like a fool At summer school  
Get your ass to the beach or at least to a pool  
At summer school  
Know when to keep and to break all the rules Beer 101, sex 102  
Tune it in, turn it out  
That's what I'm talking about It's time to go to summer school  
The courses are easy and there are no rules  
At summer school  
Remember what is and is not cool You need to stay in summer school  
This is the time and the place to act like a fool  
Oh, summer school  
Just know when to keep and to break all the rules
