

# Let 'em Whirl

## BlackHawk

Whirlwind runnin' through my head  
Wasted words that people said  
Wind is howlin' at my door  
I don't listen anymoreDarkened sky blocks out the sun  
Still reeling from the damage done  
If I go out and chase that wind  
Might not make it back againLet 'em whirl  
Who am I to say?  
You gotta do things different  
I know a better way  
Let 'em whirl  
There's a child in everyone  
Who's got to ride the storm out  
To see who they'll become  
Let 'em whirlThe simple things are hard to see  
I got you and you've got me  
No cause left for us to fight  
Being wrong's a God given rightLet 'em whirl  
Who am I to say?  
You gotta do things different  
I know a better way  
Let 'em whirl  
There's a child in everyone  
Who's got to ride the storm out  
To see who they'll become  
Let 'em whirlWe all learn the hard way  
We can't pretend to know  
Where life is gonna lead us  
Which way the wind will blowLet 'em whirl  
Who am I to say?  
You gotta do things different  
I know a better way  
Let 'em whirl  
There's a child in everyone  
Who's got to ride the storm out  
To see who they'll become  
Let 'em whirlWho am I to say?  
Gotta do things different  
I know a better way

Let 'em whirl  
There's a child in everyone  
Who's got to ride the storm out  
To see who they'll become  
Let 'em whirl
