Bring Me to Life

Marston Smith

Open your mind, don't let it slip
And take you on a midnight ride that's wicked
Everyone around it comes in feeling
Fed up with the way their rooms are hidden
Take me to a place where doors are open
A lovely little place where no one's broken
Welcome to the world that no one's livin'
Just wanna break out and escape this prison
Bring me to life, breathe air into me
It's taken me my whole life to realize all the things I've never seen
Bring me to life, breathe air into me
Take me from the darkness that I feel 'cause I just wanna be free
Bring me to life
Come on, start your engines, flip that switch
And take you to the limit if you ride like this
And if you feel alive then pump your fists
'Cause there's no turnin' back when the energy hits
Down comes the rain like a hurricane
Hard to breathe like a storm hangin' over me
Comin' to get me but I don't have to let it in
I stand up, face my fears like an enemy
Bring me to life, breathe air into me
It's taken me my whole life to realize all the things I've never seen
Bring me to life, breathe air into me
Take me from the darkness that I feel 'cause I just wanna be free
And I've been wanting to break out, you helped me figure out
That I could come to life and turn this thing around
Been wanting to break out, you helped me figure out
That I could come to life and turn this thing around
Just shut it if you're talkin' to me
I'm sick and tired of all your lies and what you want me to be
Just shut it if you're talkin' to me
I'm sick and tired of all your lies and what you want me to be
Just shut it if you're talkin' to me
I'm sick and tired of all your lies and what you want me to be
Just shut it if you're talkin' to me
I'm sick and tired of all your lies and what you want me to be
Bring me to life, breathe air into me
It's taken me my whole life to realize all the things I've never seen

Bring me to life, breathe air into me
Take me from the darkness that I feel 'cause I just wanna be free
