

Warm

The Four Freshmen

Warm my lips against your lips
And warm my finger tips
By giving me your hand So warm to have you close to me
And hold you tenderly
I never felt so burned All of my life I walked in the cold
Till I found your warm arms
For having to hold So please don't ever let me go
For I could never know
A love that is so warm So warm to have you close to me
And hold you tenderly
I never felt so burned All of my life I walked in the cold
Till I found your warm arms
For having to hold So please don't ever let me go
For I could never know
A love that is so warm
