My Room

Earl Okin

If you come to room
put a smile on your lips
come to my room
kinda loosen up your hips
come to room baby
we're gunna have us some fun

If you come to my room
you'll hear that closing door
once you're in my room
feels those cloths slip to the floor
won't you come to my room baby
we're gunna have us some fun

Cause i'll put you under my spell
charm you out of your shell
let's see how everything fits
then i'll do everything you want and give you the
shivering bits

come to my room
make no plans to get away
once you're in my room
you'll want to stay there everyday
come to room baby
we're gunna have us some fun

Trumpet solo

cause i'll put you under my spell
charm you out of your shell
let's see how everything fits
then i'll do everything you want and give you the
shivering bits

come to my room
make no plans to get away
once you're in my room
you'll want to stay there everyday
come to room baby

we're gunna have us some fun

yes in my room
we're gunna have us some fun.
