Jeb Rand

Armistice

Jeb Rand
Running from bullets of his past
Jumping from rock to rock just out of grasp
Orphaned boy coming from ships across the sea
Memory is what you know not what you see
so please understandJeb Rand you're a wanted man
Shot down by your brother's hand
Jeb Rand run out of this land
They won't stop til you can understandJeb Rand
Fighting time
with all his might
A desert wind lost ten thousand guns
blazing in the night so please understandJeb Rand you're a wanted man
Shot down by your brother's hand
Jeb Rand run out this land
They won't stop til you can understand
Stand
Understand
Stand
So please understand
Jeb Rand you're a wanted man
Shot down by your brother's hand
Jeb Rand run out of this land
They won't stop til you can understand
