

# Old Mountain Train

## Mimes On Rollercoasters

It's time to relax on the old mountain train  
Riding the rails an adventure awaits

Never a care, come along for the ride  
Pour another drink. Let the train be your guide

It's hard to see how anything could go wrong  
With you here by my side singing along

Never a care, come along for the ride  
Pour another drink. Let the train be your guide.

Imagine our life's like this bumpy old train  
Our terminal journey with stops along the way

Never a care, come along for the ride  
Pour another drink. Let the train be your guide.
