

# Get Silly

## Ben Westbeech

hey hey hey hey hey... (X4)

I keep on rolling round turning everybody  
I keep on rolling round turning everyone (X4)

I get a little bit silly when I've had too many drinks  
My attitude is wrong and my breath it really stinks  
Please be careful, don't know what I might say  
When your friends have run away

We get a little bit silly when we've had too many drinks  
Sometimes the shit comes out when our minds don't really think  
Gotta be careful, don't know what I might say  
Guna get knocked out one day  
(and it won't be long before)

I keep on rolling round turning everybody  
(and it won't be long before)  
I keep on rolling round turning everyone  
(and it won't be long before) (X2)

I just need a little bit of time to sober up  
Maybe I will sort it out or maybe I will not

Still get a little bit silly when I've had too many drinks  
But I don't go mad, I just get to the brink  
Gotta be careful or I will lose my way  
Coz I'm easily lead astray

I gotta concentrate on the things I really need  
Music and love and health, my soul needs to be free  
Don't need to come down, to waste another day  
You know I'm guna be okay  
(you know I'll be okay)

I keep on rolling round turning everybody  
(You know I'll be okay)  
I keep on rolling round turning everyone  
(You know I'll be okay) (X2)

Hey hey hey hey hey (X4)
