

Recognition

Migos

You know it feel good when your recognized
Recognized (recognized, recognized)
As I wanted to be
I didn't know all this was gonna come with it I just wanted to be recognized oh
I just wanted to be recognized oh
I just wanted to be recognized oh
I just wanted to be recognized oh
Now I'm having recognition (recognition, recognition)
Now I'm having recognition (recognition, recognition)
Now I'm having recognition (recognition, recognition)
I just wanted to be recognized (recognition, recognition)
Now I'm having recognition I just want to be recognized
Make my momma smile
Make my grand momma proud (grandma)
Now I got recognition
Same people doubted see me on television (TV)
Pocket watching on a nigga cheque
Recognize a nigga rolex
Seventeen years old nigga kicking doors couldn't even vote yet
Meditation of the mind was the greatest thing that a nigga found
They recognize a nigga sound
And we didn't let the world down
Started with a brick turned it to a foundation (foundation)
Turn the foundation to an empire
I'm the founder of Yung Rich Nation (Yung Rich Nation)
And I still get recognized by my old patients
With a snagged tooth smile he said he happy that I made it I just wanted to be recognized
I just wanted to be recognized
I just wanted to be recognized
I just wanted to be recognized
Now I'm having recognition (recognition, recognition)
Now I'm having recognition (recognition, recognition)
Now I'm having recognition (recognition, recognition)
I just wanted to be recognized (recognition, recognition)
Now I'm having recognition If I got the feeling that I weren't recognized
I know I'd still be recognized in momma's eyes
I'm in the trench coat for the skies
I keep the forty-five on my waistline
Shoot your block down with the Glock like a alpine

Fuck it shoot the club up call me shine
These Balmain's no Calvin Kleins
Flood my neck with that gold like Busta Rhymes
That Migos on the billboard
worldwide we recognized
A lot of these niggas wanna be recognized
But these accounts jammed up not gonna do the time
I know some niggas they got acquitted
And they didn't want tell and get crucified
I'm smoking on OG it ease my mind
Need some Visine 'cause I got the red eyes
Ain't thinking bout a bitch I'm getting money
'cause these bitches come and go like red eyes
Now I'm recognized taking trips in my lamb I own it no enterprise
Looking at niggas can't be mad at niggas
'cause nigga just want to be recognized I just wanted to be recognized oh
I just wanted to be recognized oh
I just wanted to be recognized oh
I just wanted to be recognized oh
Now I'm having recognition (recognition, recognition)
Now I'm having recognition (recognition, recognition)
Now I'm having recognition (recognition, recognition)
I just wanted to be recognized (recognition, recognition)
Now I'm having recognition (all set) Momma said recognize God
I recognized then my momma had pain in her eyes (pain)
So I walked through the shadow, the valley of death
I'm addicted to drank and I can't even help it
(lean, lean, drank, drank)
Pussy nigga taking selfies
Ask me for money I told that nigga
no he go round the hood saying I'm selfish (huh?)
That's the reason that I left him
Your momma keep calling say help
She didn't recognized you was a failure
I wanted to be recognized
Went to the mall and bought me a 10
and told the school it caught me five
My OG taught me to be wise
Thanking the Lord 'cause I'm recognized
VH1 you can go see it live
Now you see me shining now you want to ride (skrrr)
They finally recognized
They copy the way we rhyme I just wanted to be recognized oh
I just wanted to be recognized oh
I just wanted to be recognized oh

I just wanted to be recognized oh
Now I'm having recognition (recognition, recognition)
Now I'm having recognition (recognition, recognition)
Now I'm having recognition (recognition, recognition)
I just wanted to be recognized (recognition, recognition)
Now I'm having recognition
