

Empty Eyes

Plastic Flowers

Wake me up
Wake me up
Find a piece of me and run
I'm gonna try and hide, I'm gonna make you stay
Turn into a ghost and fade away
So fade awayEscape ourselves
And move along
Pretend that there's nothing wrong
Darkened shapes and precious souls
You and I and nothing more
Nothing moreNothing more as soon as there's time
Nothing more as soon as there's time
And I escape myself and I'm just falling down
And I escape myself and I'm just falling down
StillWake me up
Wake me up
Find a piece of me and run
I'm gonna try and hide, I'm gonna make you stayFade awayNo more time and there's no more time
And I can change for you and I can change for us (x3)
And I can't deny, cause I can change for you and I can change for us,
I can change for you
