I Know

Duane

We can fight
We can fuss
We can kiss
We make up
We make love
I know we've, always been that way
nothings changed
I was bored
you were hurt
wantin more
I ignored, and now we've gone our sepeate ways

now, I, try to figure when we went wrong
and now, I, am thinkin how could i do you so wrong
and now I, im, tryna get you out of my head
and now, I know, that that will probably never happen

Chorus:

I know, she's the only woman for me
I know I was wrong when i just let you leave
I try datin them other girls
but they just confirm it all more
my heart just keeps tellin me fix what i've done
I know

sittin here
missin you
want you back
wish I know
where you were
so I could try to explain
I was wrong
couldn't see
love was right in front of me
cant believe, that I just let you walk away

now, I, try to figure when we went wrong
and now, I, am thinkin how could I do you so wrong
and now, I'm, tryna get you out of my head

and now, I know, that that will probably never happen

Chorus:

I know, she's the only woman for me
I know I was wrong when I just let you leave
I try datin them other girls
but they just confirm it all more
my heart just keeps tellin me fix what i've done

I know, that its hard
for you to see this through
me geting up with you
but im trying to be
honest, realizing my mistakes
hopin' that its not too late
and if it is, I'll wait

Chorus:

I know, she's the only woman for me
I know I was wrong when I just let you leave
I try datin them other girls
but they just confirm it all more
my heart just keeps tellin me fix what I've done

I know, she's the only woman for me
I know I was wrong when I just let you leave
I try datin them other girls
but they just confirm it all more
my heart just keeps tellin me fix what I've done

I know, she's the only woman for me
I know I was wrong when I just let you leave
I try datin them other girls
but they just confirm it all more
my heart just keeps tellin me fix what I've done
