

End Up Like This

Son of Dork

Yeah

Hey, yo, we used to be young, dumb, full o' cum

Bubble yum, bubble gum, with no funds

But we still had fun

Don't worry, be happy, that's what we was

We was family, caring for loved ones

Blood relatives, first and second cousins

Brothers all from the same mother

Now we act like we don't know each other

We used to play with toy guns

Now we bust real ones

Shoot 'em up Kill Bill style and fashion

Hey, yo, what happened?

Hey, yo, what happened?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Hey, yo, the vision that I'm seein' ain't the same no more
We used to tell the girls we love 'em, now we calling 'em whores

Summers of the past was a blast when we cooked out

But now we grab the phone, sit alone and order take out

Kids playin' outside, yellin' out names

Now the fun and excitement's in the video games

Brothers used to speak "What's up," "How you"

Now it's "Homie", "Who the heck" and "Why he lookin' at you?"

It really blows my mind how we changed our direction

As the years go by, I gotta ask this question

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?
We-a dire need but what the empire need
When you lyin' to me, it seems so fine to me
I got a glass eye that reflects the fast fly
Then my acne [Incomprehensible] the latchkey cool
I used to want to hit the streets to hide my fault

The life at the [Incomprehensible] or the pain I've caused
The damage I laid was covered up with praise
'Cause, Momma, did you know that I had changed my ways?
But don't judge me, harass my clique
We only doin' this, 'cause the neighborhood permits
So try to explain, just one thing
What if we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Yeah, I'm runnin' muddy and graffiti understudy
To switchin' to musician and children across the country
Trips to Cuba and tours with Santana
Help me not to flip this statement and endure these bad manners, man

They ain't chasin' but came to main

'Cause inducing caine is a beast

To sustain your brain pressure

Tryin' not to see the fact that you da man

Leave the plan [Incomprehensible]

'Cause your choices affect your band members in the air, shit

Later for business, what happened to friendship?

The rest is just nonsense

My natural response is to just to roll up our fists and ask

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?
