

# I Am Ahab

## Mastodon

There's magic in water that attracts all men  
Across hills and down streams  
The turning of the tide Outlook, future bright  
Selfish beauty shines  
Light cloud rain, drive on 13 years to this day red planet aligned  
Into sight 60,000 years of light  
Fascination with a mountain put to sea  
Built to slay and conquer all with teeth of beasts
