Talk To Me

George Nozuka

I wanna take you home, to my place
Share my dreams and my fantasies, I can't wait
I wanna show you things, you've never seen before
Girl, I hear you cryin', cryin' out for moreTalk to me, talk to me, am I doing this right?
Talk to me, talk to me, are you feeling alright?I've been waiting for this my whole life
And here you are tonight
I've been waiting for this my whole life
And I can see it in your eyesAre you ready to stay up all night
To see the morning light
I've been waitin' and waitin'
And waitin' my whole lifeSo now here we are, dim the lights down low
Oh, we can go fast or should I go slow
I wanna kiss your lips, is that okay
I'm that guy, I'm that guy
Baby, you'll be callin' out my name
Sing it to me nowTalk to me, talk to me, am I doing this right?
Talk to me, talk to me, are you feeling alright?
Sign itI've been waiting for this my whole life
And here you are tonight
I've been waiting for this my whole life
And I can see it in your eyesAre you ready to stay up all night
To see the morning light
I've been waitin' and waitin'
And waitin' my whole lifeI wanna cater to you
Nothing that I wouldn't do
I try to find words to say
I've never felt love in this way, this wayI've been waiting for this my whole life
And here you are tonight
I've been waiting for this my whole life
And I can see it in your eyesAre you ready to stay up all night
To see the morning light
I've been waitin' and waitin'
And waitin' my whole li-li-li-life
Will you be waitin' my whole life
