

Sunny Days

Eso

It's a Sunny Day
No stormy weather
There's a place in the clouds
I escape from the crowdLet's fly away
 No more pressure
 Don't get trapped in your fears
 Just be happy you're hereYeah, Yo
 You can bet your bottom dollar
 That I am happy go lucky
 I am so on another level
 They can't actually touch me
 Relax and get comfy
 I'm kicking back where it's sunny
Trying to teach them not to believe in just a sack full of money
Cause that's a back full of monkeys and we don't live like that
 Using positive knowledge is how I spit my raps
 So I'mma praise the gift and blaze my spliff
 Thank the gods that we get to live days like this
 It's a Sunny Day
 No stormy weather
 There's a place in the clouds
 I escape from the crowdLet's fly away
 No more pressure
 Don't get trapped in your fears
 Just be happy you're hereYeah, see every day I'm a shine
 I'm a dreamer for the cause, this was made by design
 I can beat 'em with the force
 I know that there's days that got you feelin' like shit
 But just know that those days lead to a feeling like this
 And I shit not, this hip-hop, it saved my life
 Showed me that paradise is simply just a state of mind
 Now I'm - on point like the head on Lisa Simpson
 With a long joint, pimpin' like I'm Peter Griffin
 And they wanna know why I never give-up
It's because I'm down with Mother Earth, and we're majestic as fuck
 So I'mma praise the gift and raise my fist
 And thank the gods that we get to live days like this
 It's a Sunny Day
 No stormy weather

There's a place in the clouds
I escape from the crowdLet's fly away
 No more pressure
 Don't get trapped in your fears
Just be happy you're hereI can see it all with my third eye
 (Scratches)

The whole world's trying to sing along
 (Scratches)

I can see it all with my third eye
 (Scratches)Yeah, Yo

I'm on my Peter Pan shit, moonstruck by the sound
Feeling like I'm rich, bitch, with two bucks from the couch
 I'm that red eye, Jedi, like Chubukka's my pal
 I keep on ducking and bumping to the apocalypse now
And I'm here to let you know that there's gon' be a brighter day
Despite whatever holds you back, you gon' be free to fly away
 So just raise your fist and praise the gift
And thank the gods that we get to live days like thisIt's a Sunny Day
 No stormy weather
 There's a place in the clouds
I escape from the crowdLet's fly away
 No more pressure
 Don't get trapped in your fears
Just be happy you're hereIt's a Sunny Day
 No stormy weather
 There's a place in the clouds
I escape from the crowdLet's fly away
 No more pressure
 Don't get trapped in your fears
 Just be happy you're here
