

You've Got A Friend In Pennsylvania

New Found Glory

My heart is pumping
For one reason
Maybe it's my imagination
But it's true
It's all in your hands
I no longer
Have this on my shoulders Oh no
It must be something I said
Love is another word for regret
You know
It must be part of my plan
It's never too late to understand And I
Wanted it to be
Something more than
Just another run around for me And I
Even though I'm glad
That I'm finally free
All that's for my life is now up to me Oh no
It must be something I said
Love is another word for regret
You know
It must be part of my plan
It's never too late to understand And I
Walk around for days
And I
Only see you in my dreams My heart is pumpin'
For one reason
Maybe it's my imagination
But it's true
It's all in your hands
I no longer
Have this on my shoulders Oh no
It must be something I said
Love is another word for regret
You know
It must be part of my plan
It's never too late to understand And I
Walk around for days
And I

Only see you in my dreams

Dreams

Dreams Waited for me

Like I've waited for you

Waited for me

(Waited for me)

Like I've waited for you
