Half As Much

Sylver

If you miss me half us much as I miss you
You wouldn't stay out as long as you do

If you need me half as much as I need you
I wouldn't worry 'bout the things you do

Half as much
Half as much
If you'd only love me half as much
As I do
When we touch
Love don't live here half as much
As before

If you want me half as much as I want you
There's no telling what we'd do

If you hold me half as much as I hold you
At least I'd know our love was true

Half as much
Half as much
If you'd only love me half as much
As I do
When we touch
Love don't live here half as much
As before

If you feel me half as much as I feel you
You wouldn't mess around with God knows who

If you know me half as much as much as I know you
Words are unneeded to see me through

Half as much
If you'd only love me half as much
As I do
When we touch
Love don't live here half as much

As before

Half as much
If you'd only love me half as much
As I do
When we touch
Love don't live here half as much
As before

Half as much
If you'd only love me half as much
As I do
When we touch
Love don't live here half as much
As before

Half as much
If you'd only love me half as much
As I do
When we touch
Love don't live here half as much
As before
