

Unlove You

[AamityMae](#)

He knows everything about me,
What I love, what I hate, what I dream.
Ain't nobody could, love me like he would,
But he don't love me like that, you see...He's the one I can't get out my head,
Every touch, every word that he said.
I play it back again,
That boy, he makes me spin,
But he don't love me like that.And oh, I get so close to losing control,
Pouring out my heart and my soul,
But I'd rather have him in my life,
Than watch him say goodbye.
You're the one that's always got my back, oh
When I'm runnin, you are my shadow.
And I can't let go,
I wish there was something I could do, but I can't unlove you.
When I'm low you always take me higher,
When I'm cold, boy, you are my fire,
And you pull me through,
I wish that there was something I could do, but I can't unlove you.He's the one who slowly breaks my heart,
Every time him and I are apart,
Out with someone else, not knowin how I felt,
But he don't love her like that.
Yeah,
How I wish I could be swept away,
In time forget all about your face,
Ain't nobody could, be better than you would,
So I wouldn't love him like that.
Hey, Oh,
I get so close to losing control,
Pouring out my heart and my soul,
But I'd rather have him in my life than watch him say goodbye.You're the one that's always got my back, oh
When I'm runnin, you are my shadow.
And I can't let go,
I wish there was something I could do, but I can't unlove you.
When I'm low you always take me higher,
When I'm cold, boy, you are my fire,
And you pull me through,
I wish that there was something I could do, but I can't unlove you.Oh, cupid and his stupid bow,
Next time could you shoot us both?

Dunno if I can let him go. Oh, I get so close to losing control,
Pouring out my heart and my soul,
But I'd rather have him in my life than watch him say goodbye.
You're the one that's always got my back, oh
When I'm runnin, you are my shadow.
And I can't let go,
I wish there was something I could do, but I can't unlove you.
When I'm low you always take me higher,
When I'm cold, boy, you are my fire,
And you pull me through,

I wish that there was something I could do, but I can't unlove you. Something I could do , but I can't unlove you.
