

# Gone In The Night

[Ufo](#)

Honey, kick your shoes off now  
And stay another night  
Let's not talk too seriously  
We don't wanna fight Now I don't care about your reputation  
Or how you got it made  
All I want is for you to stay  
Don't want a charade And the lights go down  
Who you with tonight  
It ain't so easy holding on  
Everything you seem to do, babe  
Just turns out so wrong You're gone in the night  
You're gone in the night  
You're gone in the night People try to tell you now  
About responsibilities  
Those married men do's and don'ts  
How it ought to be But I don't care what they say  
Don't wanna hear what's true  
As long as you want me, baby  
You know I need you And the lights go down  
Who you with tonight  
It ain't so easy holding on  
And everything you seem to do, babe  
Just turns out so wrong You're gone in the night  
You're gone in the night  
Gone in the night  
Gone in the night
