I Need It

Frank Ocean

Lovin' you it seemed to me
Is everything that it should be
Lovin' you the way I do
Should be gritty clear to youYou've got a thang for me
Even the blind could see
Something you got, you can't beat it - noWell, girl, I need it - girl, I need it
That thang - that thang
Girl, girl, I need it - girl, I need it
That thang - that thang
Baby, babe, I need it - I need it
Oh yeah - oh yeah
Babe, babe, I need itSomething you got weakens me
I give in like 1-2-3
Sometime I do somethin' wrong
We hug and kiss and it's all gone
Ain't that coldYou've got a thang for me
Even the blind could see
Something you got, can't beat it - noNo, that's why girl, I need it - girl, I need it
Yeh-boo-boo-boo-boo-boo-boo - eh-boo-boo-boo-boo-boo-boo
I need it
That thang - that thang
That thang - that thang
Girl, I need it - I need it
That thang - that thang - that thang
Girl, I need it - girl, I need it - owGot to tell it like it is
Love will last a million years
It sure did open up my nose
You kept the dose so it can't goesYou've got a thang for me
Even the blind could see
Something you got, you sure can't beat it
