

Leave Me Alone

Eden Brent

I can't remember
The last time you smiled
We haven't made love
In such a long, long while
If it's over
We'd better move on
But when you leave me
Leave me aloneSo many nights
I spent by your side
So many more
Without you I cried
And it ain't right
You're doing me wrong
So when you leave me
Leave me alone
When you leave me
Leave me alone
Don't write me letters
Don't call me on the phone
I'll be just fine
When I'm finally on my own
So when you leave me
Leave me alone
