

Christmas Time

Hanson

Every thing is different
Nothing has changed
Now we're going in circles
It's Christmas again Can't you hear the sleigh bells ring?
All our voices unite
And look up to the heavens
See the stars shinin' bright Oh, everybody needs a little lovin' around Christmas time
Somehow you got to know you're gonna be all right
Oh, do you really remember how it used to be
Sittin' under the Christmas tree?
In your heart you'll find the season
Oh yeah
Oh We've been blessed by the children
Black, yellow an' white
They believe in the things
We try to deny Oh, so throw down your weapons
Don't continue the fight
And let's love one another
On this holy night Oh, everybody needs a little lovin' around Christmas time
Somehow you got to know you're gonna be all right
Oh, oh, do you really remember how it used to be
Sittin' under the Christmas tree?
In your heart you'll find the season Oh, reach down inside you heart
Won't you reach down inside your
And see all the love
Oh in your heart you'll find the reason Everybody needs a little lovin' around Christmas time
Somehow you got to know you're gonna be all right
Oh, your gonna be alright
Do you really remember how it used to be
Sitting under the Christmas tree
In your heart you'll find the season Everybody needs a little lovin' around Christmas time
Somehow you got to know you're gonna to be all right Everybody needs a little lovin' around Christmas time
Somehow you got to know you're gonna to be all right
If you know you're gonna be alright Everybody needs a little lovin' around Christmas time
Somehow you got to know you're gonna to be all right
Yeah, yeah
Yeah, yeah
Yeah, yeah, yeah, yeah Everybody needs a little lovin' around Christmas time
Somehow you got to know you're gonna to be all right

Everybody needs a little lovin' around Christmas time
Somehow you got to know you're gonna to be all right
