The Best of You and Me

Number One Gun

It's a shame when you know when you know this
When you roll your eyes back in your head
Fall asleep again and you're wakened
By the sounds of your heart when it's brokenBeautiful the scene every time
When I look at your face in the night
It's so bad, the things in my mind
But I swear I'll never leave you here'Cause we deserve a second chance
I promise I'm not looking back
I'll love you till the end of this
I'll take away your fearI can't believe we're doing this
And all the secrets that we've kept
Have kept us from the best of this
The best of you and meYou bottle it up inside
And take all the things I deny
And throw it away on the left
And take it back on the rightBeautiful the scene every time
When I look at your face in the night
It's so bad, the things in my mind
But I swear I'll never leave you here'Cause we deserve a second chance
I promise I'm not looking back
I'll love you till the end of this
I'll take away your fearI can't believe we're doing this
And all the secrets that we've kept
Have kept us from the best of this
The best of you and me
The best of you and meControl this, control this
Control this, control this(Control this)
It's a shame when you know when you know this
(Control this)
When you roll your eyes back in your head
(Control this)
Fall asleep again and you're wakened
(Control this)
By the sounds of your heart when it's broken(Control this)
Beautiful the scene every time
(Control this)
When I look at your face in the night
(Control this)
When I look at your face in the night

(Control this)
When I look at your face in the night
