

Holy Roller

Thao & The Get Down Stay Down

I am a woman of leisure
I've been looking for the end of wait
I don't want it but I need it
Well come on baby why don't you give me some it's too hard for habits
My patience is done with me
I want to live in times like touch
I want to stay where my temper beats Holy roller, roll over me
I'm looking for something else to see
Lasts so long
Hurts so bad
But I want love in the aftermath
I want love in the aftermath I've got minds to ease and thoughts to think through
I've got words to keep and lies to make true
I've got minds to ease and thoughts to think through
I've got words to keep and lies to make true Holy roller roll over me
I'm looking for something else to see
Lasts so long
Hurts so bad
But I want love in the aftermath
I want love in the aftermath Holy roller roll over me
I'm looking for something else to see
Lasts so long
Hurts so bad
But I want love in the aftermath
I want love in the aftermath
