On My Way To You

Jamie O'neal

I worked a little while, in a little town in Colorado
But the winters were just a little bit too long
So, I decided California was the place that I'd go
And I was gone
Fell in love, got my heart broke down in San Diego
I was off and driftin' any way the wind was blowin'
That was then, way back when, I didn't have a clue where I was goin'
No, I had no way of knowin' I was
On my way to you, there were things I didn't understand
I didn't see the plan but now I do
There were no mistakes and no bad moves
No, I wouldn't change a thing that I went through
On my way to you
What if I'd have stayed an extra day or left a week too early
Who's to say my path and yours would have had a chance to cross

At the time I couldn't see the line connectin' each and every little dot
Keepin' me from getting lost
On my way to you, there were things I didn't understand
I didn't see the plan but now I do
There were no mistakes and no bad moves
No, I wouldn't change a thing that I went through
On my way to you
I'm glad I didn't chance direction, no
Not one minute or a second
On my way to you, there were things I didn't understand
I didn't see the plan but now I do
There were no mistakes and no bad moves
No, I wouldn't change a thing that I went through
On my way to you
