

Empty Room

Arcade Fire

Searching in, in an empty room
Searching in, in an empty room
Something I would never do Searching in, in an empty room
Searching in, in an empty room
Something I would never do I'm alone again When I'm by myself
I can be myself
When my life is calm
But I don't know when You're burning out, you're black and gray
You're burning out, you're black and gray
Something I would never say I'm alone again When I'm by myself
I can be myself
When my life is calm
But I don't know when Toute ma vie, etre avec toi
Toute ma vie, etre avec toi
[inaudible], toi tu m'aimes Toute ma vie, etre avec toi
Toute ma vie, etre avec toi
[inaudible], toi tu m'aimes
