I Need You Back

Lea Salonga

(odette quesada)If I had shown what you really meant to me
Maybe then you'd still be a part of me
I was wrong not to let you know
This feeling that's hard for me to showSince you've gone I've always been alone
Feeling down and sorry for myself
I look at your picture and there I find
I won't make it through another rain
Without your sunshineRefrain:
I need you back...
I need you here to guide me
Please come back
You're the only one who's ever loved me
I need you back
Let's start all over again
Share the love you had for me thenSince I've said what I came here to say
Guess I'd better be going on my way
But before I go I just got to let you know
You're the only one who can make me happy againI need you back...
I need you here to guide me
Please come back
You're the only one who's ever loved me
I need you back
Let's start all over again
Share the love you had for me then
Share the love you had for me then...
