

# Black Valentine

Jarell Perry

I'm waiting for you here in the crossfire  
Give me a sign  
I've been staring at you here in the moonlight  
Too many times  
Show me  
Something I can work with  
And I'll work with it all night  
Give me  
Something I can work with  
And I'll give you my life  
Just say that you'll be mine before we die  
I'm waiting for you here in the crossfire  
Give me a sign  
I've been staring at you here in the moonlight  
Too many times  
Show me  
Something I can work with  
And I'll work with it all night  
Give me  
Something I can work with  
And I'll give you my life  
Just say that you'll be mine before we die  
I don't wanna die without, baby  
And I don't live without knowing, yea yea  
I don't wanna die without, baby  
Let me save you tonight  
Give me something I can work with
