

Kingsize Jones

Eric Burdon

Nobody ever held a gun to my head
when you and I jumped into bed
I was not forced to kneel and pray
to worship the temple between your legs Look at me now, I got a kingsize jones
Look at me now, I got a kingsize jones I left you twenty times before
and now Im back scratchin at your door
look what you done, dont you realize
oh child, got my nose open wide Look at me now, I got a kingsize jones
Look at me now, I got a kingsize jones Well Im so far, from a shinin life
I wandered far, what shall I do?
Well Im so far from a God
so close to you. Lord have mercy on my soul (have mercy!)
your tongue in my mouth makes my blood run cold (ooo!)
Lord have mercy on me please (mercy!)
Im infected with this heart disease Look at me now, I got a kingsize jones
Look at me now, I got a kingsize jones Well Im so far, from a shinin life
I wandered far, what can I do?
Well Im so far from a God
So close to you. Look at me now, I got a kingsize jones
Look at me now, I got a kingsize jones Look at me now, I got a kingsize jones
Look at me now, I got a kingsize jones
