I'm A Wonder

The Cab

I came, you went
Was there something I should have said?
I'm sure that isn't I'm supposed to know
If I could be myself for just a minute
And I could make her pleased with myself in this relationship
Now all I want is a moment alone
Without you, without you
Time out but keep the tapes rolling
Just in case I say anything brilliant
Time out but keep those cameras rolling
Just in case I don't look this good forever
Like hell I'm spent
You were someone I shouldn't have met
For your own sake let's take my side for once
If I could be myself for just a minute
And I could make her pleased with myself in this relationship
Now all I want is a moment alone
Without you, without you
Time out but keep the tapes rolling
Just in case I say anything brilliant
Time out but keep those cameras rolling
Just in case I don't look this good forever
I'm sure that isn't I'm supposed to know
Time out but keep those cameras rolling
Just in case I don't look this good forever
Time out but keep those tapes rolling
Just in case I say anything brilliant
