Anything

Offer Nissim

There is nothing I wouldn't do
Just to have another plan to get to you
There is no way I wouldn't do
Anything I have to do to get to you

Get to you
Get to you

There is nothing I wouldn't do
Just to have another plan to get to you
There is no way I wouldn't do
Anything I have to do to get to you

Get to you
Get to you

Just throw away your worries
And just keep dancing 'till we fall down
Just let me hold your body
And just feel you around me tonight

Just throw away your worries
And just keep dancing 'till we fall down
Just let me hold your body
And just feel you around me tonight

Just let me hold your body
Just let me hold your body
Just let me hold your body
And just feel you around me
Hold your body
Around me
Around me
Around me
