A Kissed Out Red Floatboat

Cocteau Twins

I'm standing here
I said 'Love', you'd listen
My heart made love if you said
(He had it all)I thought he'd known love even for
He's so mean to her
I don't wanna knowOnly had he hold on to that love
He'd be alongside you so guardedHe needed all you had
He had it all
He needed all you had
He needed all you hadI've been here
Here with more than he asked you for
And I've got what you need for
(Your heavy heart)
He gave me love
He'd give me
He loved you, you knowHe needed all you had
He had it allHe needed all you had
He needed all you had
He needed all you had
