

# Body Bag

## Beartooth

You're rising, killing of the dead  
Body in the shadow, calling of the dead  
You're dying, live beyond the way  
Falling through the gates  
Scavenge you, with the darkening light Through the falling going low  
To the death of those, the dying  
We're dying, healing of the one  
Falling of the days, charring in the sun We're dying, killing of the need  
Violence of the ways, slowly bleed  
Killing for the need, you're fallen dead  
Rising of the dead with the fallen ways Rising from the dead, with you  
The killing for the need, the darkened light  
The rising of the dead, the glories killed  
Rising from the dead with the darkened light
