

# Wilding Me Out

Gerald Levert

Everybody plays a fool for someone  
Calling you and paging you, 9-1-1  
Can't stand when you're not around  
Your love is wildin' me out  
Wilding me out, wilding me out  
Wilding me out  
Crazy, I used to call it crazy  
When my friends used to be  
All confiding in me 'bout their girl  
See, I never understood  
How any real man could  
Let a woman come in  
To change and shake up their world, uh no  
One thing you can not change now I feel this way  
Everybody plays a fool for someone  
Calling you and paging you, 9-1-1  
Can't stand when you're not around  
Your love is wildin' me out  
Wilding me out, wilding me out  
Wilding me out  
Calling your house, hangin' up  
Doin' all that crazy stuff  
Girl, I followed you home  
Just to see if you're alone, baby  
Ain't that crazy baby  
Got me callin' all your so-called friends  
Seeing what you did last night again  
I can't sleep, I can't eat  
You done beat me at my own game, baby  
Yes you did  
I guess it's true 'cause I'd be your fool  
If you asked me to  
Everybody plays a fool for someone  
Calling you and paging you, 9-1-1  
Can't stand when you're not around  
Your love is wildin' me out  
Wilding me out, wilding me out  
Wilding me out  
Everybody plays a fool for someone

Calling you and paging you, 9-1-1  
Can't stand when you're not around  
Your love is wildin' me out  
Wilding me out, wilding me out  
Wilding me out  
I would do about anything  
Just to keep you happy baby, yeah  
I used to live a player's life, yeah  
But you came and changed my mind baby  
Everybody plays a fool for someone  
Calling you and paging you, 9-1-1  
Can't stand when you're not around  
Your love is wildin' me out  
Wilding me out, wilding me out  
Wilding me out
