

All Of The Time

The So So Glos

All of the time, it's the same trick
It's the same damn trick all the time
Someone is out there, getting sea sick
And someone rocks the boat in rhythm and time
All of the time
Even the time you spend shooting blanks at kids in your high
Like all of your friends
With their blues pills ducking in the hills of the Hollywood sign
Well fuck your good vibe
And your new friends and their new clothes
Fuck their design
Cause everybody wants your body dressed up all of the time
Out for the kill the children try
Doped up with homicide in mind
They go their way, theirs, ' the highway
Go take the highway but it may take your time
All of your time
Even the time you spend shooting blanks at kids in your high
Like all of your friends, with their bullshit change
And they just get nickled and dimed
Still on the kill and aiming high
Each hoping to camouflage their mines
They don't stop and look you in the spot where your eyes be
They just pass by me
They just let time click by
All of the time, it's the same trick
It's the same damn trick all the time
Someone is out there, getting sea sick
And someone rocks the boat in rhythm and time
In ritalin time
At the same time, one gets a check and the other gets fined
Cause everybody wants your body wrapped up all of the time
Down on the hill where no mans climbed
In gospel mountain tops recline
So get your ass off the superhighway
Let's take it my way
Let the time click by
All of the time
All of your time
If it's the end of time, let's ride, oh let's ride
Take off your phony disguise and come by
Say goodbye
