

We're Dancing

Bridgit Mendler

When you take my hand
Your face is all I see
And all the walls they go
Black
Like a movie scene
My feet start to move, what
You do to the stinolium
It's like the perfect dance
Floor

Put your hands by my waist
I hear the violins
& one step is all it takes
And then my head spins
I don't see the walls at all...
Since the minute that we
Stepped away from this
Place

We're dancing & the
World disappears
We're dancing to music no
One else hears
It's magic, it's like we're
Stopping time
When your heart beats mine

When we're dancing,
Dancing, dancing, when
We're dancing, dancing,
Dancing

When were dancing

World is soft like a blur,
All I see is color
Hardest fall, so it hurts,
When were with each other
You're a sweet song bird
When you're singing I my

Ear
Goosebumps run down my
Skin when

We're dancing & then the
World disappears
Were dancing to music no
One else hears
It's magic, it's like we're
Stopping time
When your heart beats mine

When were dancing,
Dancing, dancing, when
We're dancing, dancing,
Dancing

When we're dancing

I think that we could live for
moments like this
The sweetest romances
Feels like there's all this
Magic
And we just got to grab it

When we're dancing

We're dancing & the
world disappears
We're dancing to music no
One else hears
It's magic, it's like we're
Stopping time
When your heart beats mine

When were dancing

We're dancing & the
world disappears
We're dancing to music no
One else hears
It's magic, it's like we're
Stopping time
When your heart beats mine

When were dancing

When were dancing,
Dancing, dancing, when
We're dancing, dancing,
Dancing

When were dancing!
