

# Speechless

Rachel Platten

Why does this part always go so fast?  
And I really want this to last so bad  
Words distract us, but we know the truth, yeah  
So hush, baby, my heart's speaking to you Just give me that touch (I want it)  
Quit talking too much, I'm ready  
Stop moving your lips and kiss me  
Keep taking my breath away 'Cause you make me speechless  
You quiet my demons  
Swallow me whole tonight and just kill me silently-y-y  
I don't need a reason  
When you make me speechless  
We're getting loud tonight, we're allowed tonight to be-be-be  
Come on baby, make me speechless  
Come on baby, make me, uh Body language screaming everything  
And keep giving it to me, fire away Just give me that touch, I want it  
Quit talking too much, I'm ready  
Stop moving your lips and kiss me  
Keep taking my breath away 'Cause you make me speechless  
You quiet my demons  
Swallow me whole tonight and just kill me silently-y-y  
I don't need a reason  
When you make me speechless  
We're getting loud tonight, we're allowed tonight to be-be-be  
Come on baby, make me speechless When you touching me  
When you kissing me  
Nothing left to say  
I'm speechless  
Get a hold of me  
Kill me silently  
Nothing left to say 'Cause you make me speechless  
Quiet my demons  
Swallow me whole tonight and just kill me silently  
I don't need a reason  
When you make me speechless  
We're getting loud tonight, we're allowed to be-be-be  
Come on baby, make me speechless Come on baby, make me shh  
Come on baby, make me speechless  
Don't say a word  
Come on baby, make me
