Under The Radar

Massari

They never see me coming under the radar
So I lay low,lay lowThey never see me coming under the radar
So I lay low,lay lowThey never see me coming under the radar
So I lay low,lay lowThey never see me coming under the radar
So I lay low,lay lowThey never see me coming under the radarIm just trying to get mine
Living my life
Stained from the grind
Been hustlin so long my life
But still they try to bring me down,ohhhhhBut they dont really know that
Ive been watching them close like a satellite
But they dont really know that
Ill be standing in the crowd in my camoflaugeSo I lay low,lay low
They never see me coming under the radarSo I lay low,lay low
They never see me coming under the radarSo I lay low,lay low
They never see me coming under the radarSo I lay low,lay low
They never see me coming under the radarI can see it in their eyes
Envy on their eyes ,still im not surprised
You know im strong enough to take them hard times
I aint about about to give it up,ohhhhh
But they dont really know that
Ive been watching them pulse with my third eye
But they dont really know that
You can never change the blue print of my lifeSo I lay low,lay low
They never see me coming under the radarSo I lay low,lay low
They never see me coming under the radarSo I lay low,lay low
They never see me coming under the radarSo I lay low,lay low
They never see me coming under the radar(radar,radar,radar)They never see me coming under the radar
So I lay low,lay lowThey never see me coming under the radar
So I lay low,lay lowThey never see me coming under the radar
So I lay low,lay lowThey never see me coming under the radar
So I lay low,lay lowThey never see me coming under the radar
So I lay low,lay lowThey never see me coming under the radar
So I lay low,lay lowThey never see me coming under the radar
