Innocent

Luminate

What if You would've never sent Your Son
What if You held back Your love
It would be so different
There would be no hope for usBut that's not the way it all went down
We're covered by mercy now
Could've found us guilty
But You chose to save usWe are, we are, we are innocent
We are, we are blameless
'Cause You take all the shame
And You wash it away
Till we are, we are innocentYou make us, You make us
You make us innocent
You make us, You make us
You make us innocentSo we can finally rest tonight
We can finally say goodbye
To the past that held us
To the fear that ruled our livesI know we're gonna fall sometimes
Nobody's got a perfect life
Could've found us guilty
But You chose to save usWe are, we are, we are innocent
We are, we are blameless
'Cause You take all the shame
And You wash it away
Till we are, we are innocentYou make us, You make us
You make us innocent
You make us, You make us
You make us innocentWe are dancing 'cause we know we're Yours
You are, oh, You're what we're living for
We were lost, oh yeah, but now we're coming home
We're coming homeYou make us, You make us
You make us innocent
You make us, You make usWe are, we are, we are innocent
We are, we are blameless
'Cause You take all the shame
And You wash it away
Till we are, we are innocentYou make us, You make us
You make us innocent
You make us, You make us
You make us innocentYou make us, You make us

You make us innocent
You make us, You make us
